

Cadabam's Unveils its New Department of Clinical Psychology in Bangalore

Bangalore: On Friday, 14th of September 2018, Cadabam's, the best comprehensive psychiatric hospitals & rehabilitation centers in Bangalore who is touching millions of lives through their care in Mental health, inaugurated their new panel of Department of Clinical Psychology in Bangalore.

Adding to this auspicious event, **Dr. Rajini P**, Deputy Director, Ministry of health & family welfare, was Chief Guest of Honor at the inauguration ceremony which was presided by **Mr. Sandesh Cadabam**, Managing Director of Cadabam's Group. The ceremony also observed the presence of other Guests of Honor, **Mrs. Sudha R. Cadabam**, Vice Chairperson, Cadabam's along with **Ms. M. K Saraswati**, Vice Chairperson, Cadabam's and **Dr. B. R Madhukar**, Medical Director & Vice President IPS KC.

The main purpose of introducing this department of clinical psychology is to conduct extensive researches and training programs to improve the treatment practices and methodologies in the field of mental health adding value to the lives of people.

Mr. Sandesh R. Cadabam says- “Cadabam’s strives to provide the best support and guide to the people and their families unaware of the real-life mental health issues and those who are encountering with various mental illnesses. We aim to foster value in the lives of people by bringing in strategic interventions, treatment techniques and novel ways of reaching out and helping the ones who are in need of mental health care.”

With added bliss and great pride, Cadabam’s launched its new edition of THINKBOX, a Magazine that talks all about the Mental Health and contributes to spread awareness about the same.

Cadabam’s overall are doing a fantastic headway for more than 25 years in their journey since their inception in the year 1992 to minimize the stigma that hangs around anxiety, depression and stress issues and will go a long way to providing care for other psychiatric conditions such as bipolar disorder, schizophrenia, and personality disorders and help the individuals pursue their healthy behaviors not only physically, but also mentally.
